Marine Chemistry, Vol. 42 (1993)

Research Papers

Temperature and pressure effects upon hydrophobic interactions in natural waters B. Čosović and Z. Kozarac	1
Aquatic distribution of 4-desmethyl sterols in the Chang Jiang Estuary, China M.-A. Sicre, R.C. Tian, I. Broyelle and A. Saliot	11
'Strongly bound' uranium in marine waters: occurrence and analytical implications D.K. Mann and G.T.F. Wong	25
Distribution of phospholipid ester-linked fatty acid biomarkers for bacteria in the sediment of Ise Bay, Japan N. Rajendran, Y. Suwa and Y. Urushigawa	39
On the composition of dissolved and particle-associated fossil fuel residues in Mediterranean surface waters M. Ehrhardt and G. Petrick	57

Research Papers

Early diagenesis of silica in sandy North Sea sediments: quantification of the solid phase M. Gehlen and W. van Raaphorst	71
Dissolved aluminium in the surface monolayer of the eastern Arabian Sea P.V. Narvekar and S.Y.S. Singbal	85
A high-temperature catalytic oxidation method for the determination of marine dissolved organic carbon and its comparison with the UV photo-oxidation method W. Chen and P.J. Wangkorsky	95
Factors controlling the solubilities of trace metals from non-remote aerosol deposited to the sea surface by the 'dry' deposition mode R. Chester, K.J.T. Murphy, F.J. Lin, A.S. Berry, G.A. Bradshaw and P.A. Corcoran	107
Dissolved, particulate and sedimentary naturally derived polycyclic aromatic hydrocarbons in a coastal environment: geochemical significance I. Bouloubassi and A. Saliot	127

Book Review

Oxygen Dynamics	145
-----------------------	-----

Research Papers

The chemical reduction of molecular iodine added to seawater, modelled as a system of linked first-order reactions V.W. Truesdale	147
Resistance to UV and persulphate oxidation of dissolved organic carbon produced by selected marine phytoplankton J.J. Ridal and R.M. Moore	167
A new optical sensor for P_{CO_2} measurements in seawater N. Lefèvre, J.P. Ciabrini, G. Michard, B. Brient, M. DuChaffaut and L. Merlivat	189
Aspects of rhodium marine chemistry K.K. Bertine, M. Koide and E.D. Goldberg	199
The release of volatile halocarbons to seawater by untreated and heavy metal exposed samples of the brown seaweed <i>Fucus Vesiculosus</i> S. Klick	211
Geochemical characterization of recent sediments in the Baltic Sea by bulk and electron microprobe analysis F. Belmans, R. van Grieken and L. Brugmann	223

Monosaccharide composition of particulate hydrolysable sugar fraction in surface microlayers from brackish and marine waters

A.-M. Compiano, J.-C. Romano, F. Garabetian, P. Laborde and I. de la Giraudière 237

Book reviews

Marine Biogeochemistry 253

Marine Hydrothermal Systems 254

Black Sea Oceanography 255

Environmental Chemistry 257

Inorganic Contaminants 258

Solid-Water Interface 259
